

"MY BOY WOULD COUGH ALL NIGHT But Since Taking Father John's Medicine He Does Not Cough at All."

"My little boy Leon had whooping cough and after getting over it, he still had a very bad cough," said Mrs. E. E. Jackson of Cliftondale, recently. "Every night after supper he would have a bad coughing spell, accompanied by nausea, and would cough continually all night. A friend told me about Father John's Medicine. I gave it to him, and before he had taken half a small-sized bottle the nausea stopped. He is on his second bottle now, and does not cough hardly at all." (Signed) Mrs. E. E. Jackson, 10 Jackson St., Cliftondale, Mass.

Father John's Medicine prevents pneumonia and consumption—builds you up because it is all pure nourishment. Not a patent medicine.

PERSONS TALKED ABOUT.

It is said that little Princess Mary, the only daughter of the Prince of Wales, will be sent to a girls' school, as her mother believes that girls together are happier and they work better.

Mrs. James B. McKinney, who is a grandmother, and whose husband was for many years a guard at the Indiana reformatory and died about a year ago, will teach in the Terre Haute schools this year.

The will of John V. Farwell, pioneer merchant and philanthropist, of Chicago, disposes of an estate of \$175,000 equally among his five children. The Moody Bible Institute, in which Mr. Moody took a deep interest, receives an annuity of \$2,000 for ten years.

Hon. John Sinclair, who has been secretary for Scotland since 1905, has just been raised to the peerage. His elevation is due to Premier Asquith's desire to have a member of the cabinet intimately connected with Scotland in the upper house.

Prince Ferdinand of Bulgaria has been noted for his impulsive way of doing things and for his capacity to surprise those about him. When quite a young man he took a part in Macedonian affairs which showed no lack of courage and a good deal of impulse.

A remarkable case, unique in the history of all consular corps of the world, is that of the American consul at Gibraltar. Mr. Sprague is the third successive generation of his family to hold the post of consul, his grandfather and his father having held it before him.

Prof. Enrico Rattelli of New Haven, Ct., has composed a musical composition to the memory of Consul and Mrs. Arthur S. Cheney, who lost their lives in the Sicilian earthquake. It will be played for the first time at a benefit concert at the Hyperion theater, to be given on Sunday evening.

Mrs. Josephine Wells, who had refused for several years to allow a physician to prescribe for her, being, it is claimed, a faith curist, died in St. Louis, and a physician reported to the coroner that she had hypertrophied heart, tubercular lungs, cirrhosis of the liver, peritonitis, gangrene of the pancreas, nephritic kidneys and gastritis. Some of the diseases had existed for years.

Single-handed and alone, Deputy United States Marshal W. M. Mays, who has captured more mountain desperadoes than any officer in Kentucky, went into the mountains of Whitley county bearing warrants for the arrest of Berry Simpson, "Tuba" West and George Stanley, who are charged with being ringleaders in the recent troubles between striking miners and deputy marshals at Stearns, which have resulted in three deaths and several men wounded.

Mrs. Truman H. Newberry, wife of the secretary of the navy, is said to have declined to allow her name to be proposed as a candidate for president general of the Daughters of the American Revolution. Mrs. Donald McLean, the present head of the organization, would like to have named her successor but Mrs. Newberry would not permit her name to be considered, although

Mrs. McLean's friends would have rallied to her support.

Mrs. John Hill, 92 years old, has been presented with a gold brooch by the members of the First Baptist Sunday school of Roselle, N. J., for her regular attendance at the classes. "Grandma Hill" has been a regular attendant at the Sunday school for years and she still makes the trip from her home, a walk of several blocks, unattended.

Among the best known Parisiennes is Mlle. Polaris, the actress, whose waist is supposed to be the smallest in the world, and whose love for cosmetics is such that even her gums and tongue are colored, while her face is made to look as white as possible, which, together with her dark hair and eyes, makes a combination as curious as—in her case—it is fascinating.

One result of the new German taxes will be to make the Kaiser pay more for his cigars. The favorite brand is a special Bremen make, and the new imperial duty will affect the products. Not only that, but the emperor's patriotic attachment to the German make of champagne will occasion increased demands upon his privy purse, inasmuch as the tariff on all home-made wines is to go up.

A Technical Age. There was quite a flurry of excitement in Noonan's buffet, caused by an altercation between Jabez Milroy and Zack Bowdrey.

Angry words were passed and one blow was struck. Prior to the incident, and when the parties were separated and had regained their equanimity mutual explanations were in order, Jabez stating that he had characterized Zack as a liar in a purely technical sense, and Zack, in his turn, assuring Jabez, with the warmest protestations of affection, that the latter might consider his nose broken from a merely technical standpoint.—Record-Herald.

It Tastes Good and Creates Strength

Vinol

the famous cod liver and iron medicine, without oil. Vinol is much better than cod liver oil and emulsions, because, while it contains all the medicinal value they do, it disagrees with no one. As a body builder and strength creator for old people, delicate children, after sickness, and for stubborn coughs and colds Vinol is unequalled.

STEINER'S PHARMACY, Norwich

Exportation of 5,000 Cats. Japan, unwilling to wait for the success of the new anti-rat virus, is importing 5,000 cats from this country to attack the rodents. The rat is one of the most widely distributed of human pests. To keep its numbers down 75 men are carried on the payroll of the city of Hong Kong alone.—Boston Transcript.
